

SDEC Outreach Email

For: Encik Ayappa, Sarawak Digital Economy Corporation | Tone: warm reconnect | Send: Wed 3 Jun, 2-4 PM

SUBJECT LINE OPTIONS

Pick whichever feels right:

- Reconnecting — Sarawak MedChain is live, small ask
- Sarawak MedChain update + a support letter request
- Quick update: built the medical records MVP we discussed

EMAIL BODY

Hi Encik Ayappa,

Hope you're keeping well, and Selamat Hari Gawai — it's been a while since we last spoke.

Quick update on what I've been building since. The patient-controlled medical records project I mentioned back then is now a working MVP, fully deployed and demo-able:

<https://sarawak-medchain.pages.dev/>

In one line: **Sarawak MedChain** lets patients own their medical records. Doctors only access records the patient has explicitly granted, and that access is enforced cryptographically on a blockchain — not by a server I control. Encrypted files sit on IPFS; only the access-control hashes touch the chain.

I've also just registered the business under SSM as **MedChain Enterprise** (Borang D attached) so everything is properly in place before approaching hospitals.

The ask: would SDEC be open to issuing a support letter I can use to open a conversation with Sarawak General Hospital? My goal is a small, no-cost 4-week pilot to validate the clinical workflow.

You mentioned **Dr Steve** at SGH the last time we spoke — would you mind sharing his full name and department so I can prepare the proposal properly for him?

Attached for your reference:

1. One-page brief on MedChain
2. Draft 4-week pilot scope (zero cost to SGH)
3. Borang D — SSM business registration

Happy to drive down to Kuching for a coffee this week or next — whatever works for you. A 15-min call works just as well.

Terima kasih,

Randy Richard

Founder, MedChain Enterprise

ATTACHMENTS CHECKLIST

- SarawakMedChain_OnePager.pdf (already in templates/)
- SGH_Pilot_Proposal.pdf (in templates/, generated from this script)
- Borang D scan (from SSM Wed morning)
- Optional: Maklumat Perniagaan (business info printout)

TONE NOTES

- Acknowledge the gap honestly** — "it's been a while" — but don't apologise. Apologies invite "no problem, let's catch up later" rather than action.
- Lead with proof** — the live demo link does more work than any paragraph of selling.
- Make the ask concrete** — "support letter to SGH" is a specific document, not vibes.
- Double-purpose the Dr Steve question** — asking for his details gives Ayappa an easy, low-effort reply that reopens the dialogue even if the support letter takes longer.
- No urgency, no pressure** — "this week or next" signals confidence, not desperation.

IF AYAPPA REPLIES POSITIVELY

Standard reply within 24 hours:

Thanks Encik Ayappa! [Insert date/time].

For the meeting, would you like me to drive to Kuching, or is a Google Meet easier? Either works.

I'll also prep a short demo so we can walk through what the doctors and patients actually see.

IF SILENCE FOR 5 WORKING DAYS

One soft follow-up (send Tue 9 Jun if no reply by then):

Hi Encik Ayappa, just floating this back up in case it got buried — happy to wait if now isn't the right time. Cheers.

If silence continues, move to Plan B: approach SGH directly via their corporate communications email, mentioning the work without claiming SDEC endorsement.
